2. ASSESSMENT OF THE FINANCIAL RESULTS AND GENERAL CONDITION OF THE COMPANY

The year 2023 was marked by a continued slowdown in global economic growth due to a protracted supply shock in the commodities market and the consequences of the war in Ukraine. The global GDP growth slowed down to around 2.7% YoY in 2023, compared to the growth of 2.9% YoY in 2022, but it was still better than expected at the beginning of last year.

A vital challenge for the global economy in 2023 was still strong, though gradually easing, inflationary pressure. In response to stubbornly high inflation in the first half of 2023, major central

banks continued to tighten monetary policy. The Federal Reserve's rate at the end of 2023 was 5.25-5.50%, while the ECB ended 2023 with a refinancing rate of 4.5%.

The situation in Poland's banking sector was most influenced by the fact that interest rates remained at the highest level in 20 years for most of 2023. As a result, the net interest income of the banking sector maintained an upward trend. Overall, the sector managed to generate record-high revenues, exceeding PLN 100 billion for the first time. The main growth driver was net interest income, which rose by 29% versus 2022. In turn, net fee and commission income remained almost unchanged, and amounted to PLN 18.7 billion. However, this high increase in revenues was followed by a significant increase in costs. The banking sector faced significant cost increases driven primarily by wage pressure (labor costs +22% YoY), rising energy prices and high inflation. At the same time, a significant relief was provided by the BFG's decision not to collect the contributions to the Bank Guarantee Fund and to reduce by 14% the contributions to the Compulsory Resolution Fund due for 2023. In effect, the net profit of the banking sector amounted to PLN 27.9 billion in 2023, i.e. it increased by 159% YoY.

In 2023, the net profit of the Bank was PLN 2,255 million – the highest net profit generated by the Bank since its first session on the Warsaw Stock Exchange.

Operating revenues of the Bank amounted to PLN 4,505 million in 2023 and were higher by 23% as compared to 2022. This increase was primarily the result of higher net interest income generated mainly in the area of treasury activities due to high interest rates over 2023. Net interest income accounted for 73% of operating income. In such an environment of high interest rates, net fee and commission income remained at the level from the end of 2022. The Bank observed increased activity of institutional clients in the area of transaction banking, which resulted in an increase in revenues from payment orders in the wake of, among other things, 9.5-fold increase in the volume of instant payments YoY), partially offset by lower revenues from fees for maintaining bank accounts and revenues from custody services (high volatility in capital markets in 2022).

In 2023, general administrative expenses and depreciation & amortization amounted to PLN 1,438 million and increased by PLN 119 million (i.e. 9%) from 2022. Higher costs were mainly caused by higher personnel expenses and higher costs incurred to rent and maintain real estate, which was partially offset by a decrease in regulatory costs and a decrease in the costs of telecommunications fees and computer equipment.

In 2023, the result on expected credit losses stood at PLN 18.2 million, as compared to net write-offs of PLN 105 million in 2022 (improvement by PLN 87 million). This decline was due to lower net write-offs in the Institutional Banking segment, due to the improving outlook for the macroeconomic situation and decreasing loan volumes. The decrease in net write-offs in Institutional Banking was partially offset by their increase in the Consumer Banking segment due to the stabilization of the loan portfolio.

At the Bank, lending decreased by 7% year over year in 2023. In 2023, in the Institutional Banking segment, the Bank observed lower demand for loans due to the good liquidity situation of clients and clients' actions to diversify their financing sources other than traditional loans. However, in the Consumer Banking segment, the decline in loan volumes affected unsecured receivables, mainly due to a lower balance of cash loans, partially offset by an increase in mortgage loan volumes.

On the other hand, the balance of client deposits increased significantly, i.e. by 9% year-over-year. The Bank recorded a particularly significant increase in new funds in the area of Consumer Banking, as a result of which the number of clients in the strategic segment of the Bank – Citigold Private Clients – increased by 22% YoY.

The total capital ratio (TCR) of the Bank was 23.2%, i.e. significantly above the regulatory levels. The Supervisory Board believes that the level of capitals maintained by the Bank is sufficient to ensure its financial security, as well as the security of deposits entrusted to it, and to stimulate its further growth.

The most significant risk driver in 2024 remains geopolitical tensions throughout the world, and in particular the war between Russia and Ukraine. A possible escalation of the armed conflict could contribute to a renewed weakening of the national currency and greater risk aversion. An

intensification of military action could also trigger renewed increases in commodity prices, including gas and oil in particular, which could contribute to renewed inflationary pressures. An escalation of the conflict in the Middle East could have a similar impact.

Furthermore, uncertainty persists regarding the scale and sustainability of the economic recovery, both in the eurozone and Poland. A prolonged slowdown could negatively affect the financial situation of the Bank's clients and the demand for loans. Uncertainty regarding the implementation of economic policy changes remains a local risk factor for economic activity. Therefore, the Supervisory Board will continue to cooperate closely with the Management Board to examine the impact of the above-mentioned risk factors on the situation of the Bank.

Taking into consideration the financial results achieved, the business profile of the Bank and the stable capital and liquidity ratios, as well as the consistent and coherent strategy of the Bank, the Supervisory Board's assessment of the activities of the Bank in 2023 is positive. Simultaneously, the Supervisory Board is convinced that both already started and planned initiatives will contribute to an increase in shareholder value by allowing the Bank to achieve optimal financial results and reinforce its market position despite a challenging market environment.

3. ASSESSMENT OF RATIONALITY OF THE BANK'S POLICY IN THE AREA OF CORPORATE SOCIAL RESPONSIBILITY AND SPONSORING

3.1. Corporate social responsibility of the Bank

The Bank is an institution which, since the beginning of its 150-year history, has considered social and environmental aspects in its decisions, and which follows the expectations of both its business and social partners.

The Citi Handlowy Leopold Kronenberg Foundation is an entity which comprehensively implements the Bank's Corporate Social Responsibility strategy.

The Citi Handlowy Leopold Kronenberg Foundation pursues its goals by conducting its own initiatives and provides substantive support for projects funded by the Citi Foundation. Among the Foundation's own initiatives implemented in 2023, the following ones are especially worth mentioning:

Support for Ukraine

In 2023, the Support Ukraine program covered activities to integrate the Ukrainian community into Polish society, especially those affected by the migration crisis. The program covers the full range of activities of the Citi Handlowy Foundation: skill-improvement volunteering, sports volunteering, support for entrepreneurs, support for women, education and support for children and teenagers.

The program is implemented in close cooperation with representatives of Citibank Ukraine and NGOs – associations and foundations that support Ukrainian citizens in building ties with Poland, including Polish Center for International Aid as well as “Nasz Wybór” (Our Choice), “Absolwent” (Graduate) and “Mamo Pracuj” (Work, Mom) foundations. Those activities have been undertaken both under programs financed by Citi Foundation and projects coordinated by the Citi Handlowy Foundation. One of the examples includes the presence of the Ukrainian paralympic swimmer, Maksym Veraksa, world's fastest paralympic swimmer, who participated in the Olympic Picnic under invitation from Citi Handlowy Foundation.

Citi Global Community Day

In 2023, more than 2,500 Citi volunteers participated in these activities (employees of Citi Handlowy and Citi Solutions Center, together with their families and friends). Over 120 projects were successfully completed!

Noteworthy projects implemented and coordinated by the Foundation as part of the 2023 Global Community Day are:

- Blood donations actions, including Olsztyn and Warsaw. 108 volunteers took part in the blood donation actions.
- Collection of donations for children in Ukraine: Under the GCD 2023 Grant Contest, one of the leaders was coordinating the collection of items for the Children's Home in Mikolaiv and day care centres for children in the Kharkiv region.
- Able Disabled: a picnic organized in cooperation with the Polish Paralympic Committee.
- A charity fair organized in connection with the Children's Day at the head office of Citi Handlowy – packing presents for children from Ukraine - over 200 packages, charity sale of meals prepared by volunteers; planting of mobile flower and herbs gardens that were delivered to care facilities, community centres and nursing facilities; collection of stationery and small food items that were used during workshops for the children.
- A Children's Day picnic organized for the Ukrainian and Polish children in the care of the Warsaw Oratory.
- Clean up the World in Warsaw and Olsztyn: the action to clean up the banks of the Vistula River and the Łyna River from kayaks.

Charity Christmas

The Christmas initiative "Become Santa's Helper" campaign. This year, aside from the traditional letters to Santa, the Bank organized also other activities for the employees, such as reservation of letters, packing presents for children from selected care facilities, preparation of Christmas cards or organization of collection for those in need.

In 2023, the Award was presented to the Borys Voznytsky Lviv National Art Gallery. 3.2. Sponsorship activities

The sponsorship activities of the Bank were focused in the areas of corporate social responsibility and promotion of values followed by the Bank in its operations: inclusion, equality and diversity.

In October 2023, the Bank, via Citi Handlowy Foundation, was one of the main partners of the European Forum for New Ideas in Sopot (EFNI). The special guest of EFNI was Ms. Val Smith, Chief Sustainability Officer at Citi. Her lecture on the social, economic and geographical dilemmas tied to sustainable development and ESG matters opened the second day of panel conferences. Ms. Elżbieta Światopełk-Czetwertyńska, President of the Bank's Management Board, participated in a debate on the effects war exerts on the international economy, supply chains and markets. Mr. Sławomir S. Sikora, Chairman of the Supervisory Board, took part in the New Interventionism panel, which discussed matters of the European markets, future regulations and the role of state and public sectors. During the EFNI, the issue of social responsibility was also present, initiated by the Citi Handlowy Foundation which led discussions with social partners on such subjects as "Entrepreneurship among young Poles – myths and practice" (the Entrepreneurial Women Network Foundation) and "Ukraine-Poland refugee crisis in a new phase?" (Polish Centre for International Aid)

For another year, Citi Handlowy was a title sponsor, partner and active participant in the prestigious IRONMAN triathlon competition held in 3 cities: Warsaw (where the Bank was the title sponsor of Citi Handlowy IRONMAN 70.3 Warsaw), as well as Gdynia and Poznań as a partner. The leitmotif of last year's IRONMAN Poland competition was "The Year of Supporting," which drew attention to those who, in such a demanding discipline as triathlon, give energy and faith, and warm up for the fight, and celebrate together with the athletes at the finish line. Among them are those most important and loyal: family and friends. Appreciating their role, Citi Handlowy invited the public to a dedicated joint cheering zone, and in Gdynia loyal supporters could take part in an exciting city game. The sports competitions are organized as part of the internal Live Well at Citi initiative, which aims to support the well-being of employees. Each such competition also includes a social cause for which the Bank makes a dedicated donation.

Bank Handlowy continued its multi-year initiatives that support an inclusive society. 2023 was another year of Citi Handlowy's partnership with the Polish Paralympic Committee. The Bank was also the partner, for the fifth time, of the Competition for the 10 Most Popular Athletes of the Warmia and Mazuria Voivodeship. During the Para-Athlete of the Year Gala, Ms. Elżbieta Światopełk-Czetwertyńska, the President of the Bank's Management Board, presented a cash prize of PLN 30,000, donated by the Bank, to the best team of para-athletes of the year. The winner was the Goalball U19 team. "We are inspired by their teamwork," said Ms. Elżbieta Światopełk-Czetwertyńska.

The above initiatives positively supported the perception and reputation of the institution. The Supervisory Board positively assesses the spending incurred by both Bank and group to support culture, sports, charity organizations, media, social organizations, sports associations, etc. as disclosed in the "Report on the business activities of Bank Handlowy w Warszawie S.A. and the Capital Group of Bank Handlowy w Warszawie S.A. in 2023."

In 2023 Members of the Supervisory Board were not granted variable remuneration. Other Supervisory Board Members did not receive remuneration in 2023.

2) Total remuneration of the Management Board and the Supervisory Board Members vs. the adopted remuneration policy

The Bank differentiates the amount of fixed compensation of Management Board Members taking into account the relevant professional experience, requirements in terms of competencies and role in the management process, which allows for attracting and retain talented managers who support Bank's development and lead the Bank to success.

Variable remuneration, granted to the Management Board Members in 2022, was determined in such a way that it promotes prudent management of the Bank, is based on financial and non-financial results and does not reward excessive risk in decision-making. The pool allocated for annual awards for the Management Board Members was subject to verification whether the Bank has a sound and strong capital base justifying the payment of variable remuneration at the proposed level, it does not limit the

Bank's ability to increase its capital base and it is sustainable according to the financial standing of the Bank.

In order to align decisions regarding compensation of the Management Board Members with shareholder interest, effectively manage risk and reflect regulatory guidance part of variable remuneration:

- was granted in financial instrument the form of existing Bank's shares in capital of the Bank or phantom shares value of which is linked to the value of the Bank's shares on the Warsaw Stock Exchange, and
- was subject to deferral over 4 or 5 years, i.e. proportionate division into 4 or 5 tranches respectively with the possibility to acquire rights to a given tranche after each year of deferral; pay-out takes place no sooner than after a 6 or 12-month retention period from the moment of acquiring rights to a given deferred tranche.

The acquisition of rights to deferred variable remuneration in 2023 was subject to verification, in particular, in terms of the Bank's financial condition and compliance by individual members of the Management Board with the standards concerning the guarantee of safe and prudent Bank management, i.e.:

- Head of HR confirmed information regarding employment and potential misconduct in connection with employment duties,
- Vice-President overseeing the Finance confirmed information regarding financial standing of the Bank and financial standing,
- Vice-President overseeing the Risk Management confirmed information regarding risk management processes.

For the avoidance of conflict of interest, for the Head of Finance and the Head of Risk the above mentioned information, which are within the scope of their responsibility, were confirmed on behalf of the President of the Management Board by the Vice-President of the Management Board who was authorized to it.

In 2023 decisions regarding grant of variable remuneration and acquisition of rights to deferred variable remuneration for previous years were made by the Supervisory Board of the Bank based on recommendations and opinions of the Nomination and Remuneration Committee of the Supervisory Board, dictated by cautious and stable risk, capital and liquidity management, and paying special attention to long-term interests of the Bank, the interest of the Bank's shareholders and investors.

For the avoidance of conflict of interest, in 2023 no variable compensation (subject to performance) was granted to the Supervisory Board Members.

3) Application of the performance criteria in the remuneration of the Management Board and the Supervisory Board Members

The results are verified prior granting variable remuneration (ex-ante) as well as at the stage of making decisions regarding vesting of deferred variable remuneration (ex-post).

In 2023 the Bank applied the following ex-ante risk adjustment criteria:

Performance criteria applicable to determine the pool allocated for annual awards for the Management Board Members granted in 2023 were described under point 2) of this report.

Variable remuneration was granted to the Management Board Members, on a discretionary basis, taking into account quantitative and qualitative criteria, such as risk and compliance behavior, to reflect

Management Board Members' performance and reduce incentives to take risks beyond the general risk appetite determined by the Bank.

Value of the granted variable remuneration depends on the individual performance and the financial results of the Bank or specific organizational unit. The performance assessment is based on the data from three financial years, which takes into account the business cycle of the Bank and risk of its economic activities. In case of individuals employed for less 3 years performance assessment covers the timeframe from establishing work relationship.

In 2023 the Bank applied the following ex-post risk adjustment criteria:

Vesting of variable remuneration and its pay-out were subject to meeting criteria at the individual level and to the financial standing of the Bank.

The amount of deferred portion of the award to be paid out may have been decreased or completely reduced based on decision of Supervisory Board if:

- standards concerning the guarantee of safe and prudent Bank management have not been met which is verified by determination if:
 - the Management Board Members engaged in gross misconduct in connection with his/her employment duties, in particular participated in or was responsible for conduct which resulted in significant losses to the Bank; or
 - the Management Board Members knowingly engaged in providing materially inaccurate information to the financial statements of the Bank; or
 - the Bank suffered a material failure of risk management; or
 - the Management Board Members materially violate any risk limits.
- In a situation set forth in Art. 142 sec. 1 of the Banking Law, or
- In case the Management Board Members received the Variable Remuneration based on materially inaccurate financial statements, or
- In case the Bank has suffered a material downturn in its financial performance; or
- In case of balance sheet loss, threat of insolvency or loss of liquidity by the Bank.

The acquisition of the right to each tranche of deferred variable remuneration depended on the Bank's results in the calendar year directly preceding the date of awarding of the right to given tranche ("Year Concerning the Results").

If the Bank would suffer a loss calculated as a loss before tax for the Year Concerning the Results, then the tranche of the deferred variable remuneration in financial instrument, to which the right may have been earned during the calendar year following the end of the Year Concerning the Results, would be reduced (but not below zero) by a percentage defined as:

- (i) the absolute value of the loss before tax suffered by the Bank in the given Year Concerning the Results, divided by
- (ii) the absolute value of the highest profit before tax made by the Bank in the period covering three calendar years before the proper Year Concerning the Results. Irrespective of the above, if the Bank would suffer any loss calculated as the loss before tax for the Year Concerning the Results, the minimum percentage reduction of 20% would be applied.

The amount of profit (or loss) before tax for each adequate Year Concerning the Results will be the total value of profit (loss) before income tax for the current operations of the Bank. The results for 2022 were defined on a basis of the local IFRS statements, covering the audited results for the first three quarters (in accordance with the report to WSE and adequate public authorities), and the last quarter of the year

consisted of the actual results for the first two months of this quarter and the estimates for the last month. The estimates were defined by the Financial Department of the Bank and they were final and binding regardless of the actual final results.

If the absolute value of the loss before tax suffered by the Bank for the Year Concerning the Results would equal or exceed the total value of the highest profit before tax in the Group's calendar year in the Measurement Period, then the Management Board Members would have not earned the rights to the given tranche.

In 2023 there were no reductions of variable remuneration within the correction connected with the results in reference to any of the Management Board Members.

In accordance with the Policy, in 2023 the Supervisory Board Members were granted only fixed remuneration, the value of which is subject to Bank's performance. No variable remuneration was granted, therefore no performance criteria were applied in reference to remuneration of the Supervisory Board Members.

Explanations and comments to the table:

- 1) Values are presented in thousands of PLN
- 2) Data indicated for a given year refer to the percentage change in value between the year for which the data are presented and the preceding year.
- 3) The calculation of changes of the average remuneration of other employees was carried out on the basis of the gross income for these employees in a given year and the total number of FTEs; compensation and other benefits of members of the Management Board and of the Supervisory Board are shown on individual basis only. The values presented in the table above do not cover a payment for non-competition in accordance with the disclaimer marked as "****" in point 8 below.
- 4) Calculation of changes of the Bank's results was carried out based on the Bank's net result for the relevant years.
- 5) Payments to former members of the Management Board made after the termination of the contract are related to the payments of tranches of deferred variable remuneration in the form of cash and in the form of phantom shares
- 6) "*" means the first year of holding function in the Bank; for individuals not holding function for the whole year the significant % increases of remuneration in the following year is largely driven by comparison of full period of holding function to part of the reference year.
- 7) "***" means the first year in which the Management Board or the Supervisory Board Member, after termination of his/her function, did not receive remuneration.
- 8) "****" values presented in the table do not cover a non-competition paid-out for: Mr. Witold Zieliński in 2019 in amount of PLN 151 thousand, Mr. David Mouillé in 2020 in amount of 903 thousand and in 2021 in amount of PLN 181 thousand, Mr. Sławomir S. Sikora in 2021 in amount of PLN 3 248 thousand, Mr. James Foley in 2022 in amount of PLN 600 thousand and in 2023 in amount of PLN 300 thousand, Mr. Dennis Hussey in 2022 in amount of PLN 451 thousand and in 2023 in amount of PLN 632 thousand.

5) Remuneration of the Management Board and the Supervisory Board Members from entities belonging to the same capital group

Members of the Management Board of the Bank supervising Bank's subsidiaries did not receive remuneration for their services in 2023.

Members of the Supervisory Board of the Bank did not hold functions in management or supervisory bodies of the Bank's subsidiaries and thus did not receive remuneration from those entities in 2023.

6) Remuneration of the Management Board and the Supervisory Board Members in the form of financial instruments

The Management Board Members are granted variable remuneration in the form of financial instrument. In December, 16 2022 the Extraordinary General Assembly of Shareholders decided to implement motivation programs that are based on the existing shares in capital of the Bank. In case Bank will not be able to deliver to employees required number of real shares, adopted changes to policies enable Bank to payout a part of remuneration as phantom share award or in case of the decision of the Bank, in form of phantom or real shares of the Bank. Awards for 2022 are granted based on new rules in 2023. Amended remuneration policies allow for 1:1 conversion of phantom shares granted before the adoption of amendments, provided that an appropriate agreements is signed with employees concerned. On December 29, 2023 the Polish Financial Supervision Authority granted the Bank its permission to buy-back Bank's shares referred to in Article 77 and Article 78 section 1 of Regulation (EU) No. 575/2013 of the European Parliament and of the Council of June 26, 2013 on prudential requirements for credit institutions and amending Regulation (EU) No. 648/2012. The buy-back of Bank's shares started in January 2024.

Phantom shares are financial instruments value of which is linked to the value of the Bank's shares; they are not actual shares of the Bank, are not redeemable for actual shares of the Bank, and are not entitled to vote or to receive dividends or other distributions from the Bank to which holders of actual shares of the Bank may be entitled to receive; they do not represent an ownership interest of any kind in the Bank or any other entity nor in any assets; they have no independent value, they only stand as a measure of the cash value of Variable Remuneration by reference to the market price of the Bank's Shares.

On the settlement date, the Management Board Member is paid the amount of cash which is the product of the number of phantom shares vested and the mean average of the high and low price of the Bank's Shares on the Warsaw Stock Exchange on the maturity date (end of Retention Period). Each time, vesting of the award is confirmed by a decision of the Supervisory Board. For the awards granted until 2022 during the deferral period and retention period, Management Board Members are entitled to dividend equivalent payments in respect of any dividends that are declared and paid to holders of ordinary Bank's shares. For financial instruments granted from 2023 dividend equivalent is due only during retention period.

The table presents information on financial instrument granted (including those granted conditionally) in 2023 (for 2022) to the Management Board Members which may be paid out in 2023-2029.

In 2023 remuneration-related issues in Bank Handlowy w Warszawie S.A. (the "Bank") were governed by:

jointly referred to as the “Remuneration Policy”.

Remuneration policy for Management Board and Supervisory Board Members implements provisions regarding shaping of the rules of remuneration set forth in the Act of 29 July 2005 on public offering, conditions governing the introduction of financial instruments to organized trading, and on public companies. It sets out the principles for remunerating Members of the Management Board and Members of the Supervisory Board of the Bank, contributing to implementation of the strategy of the Bank, effective risk management, its long-term interest and stability.

Remuneration policy for employees of the Bank implements requirements regarding structuring of the remuneration principles in banks provided for in the provisions of law, the Principles of Corporate Governance for Supervised Institutions adopted by the Polish Financial Supervision Authority (“Principles of Corporate Governance”), Best Practice for WSE Listed Companies 2021, recommendations of the Polish Financial Supervision Authority covering banking sector, Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector and takes into account Guidelines of the European Banking Authority on sound remuneration policies under Articles 74(3) and 75(2) of Directive 2013/36/EU and disclosures under Article 450 of Regulation (EU) No 575/2013, Guidelines of the European Banking Authority on remuneration policies and practices related to the sale and provision of retail banking products and services, Guidelines of the European Securities and Markets Authority on remuneration policies and practices (MiFID). It covers persons whose professional activities have a material impact on the risk profile of the Bank and specifies the rules of remunerating this category of staff provided for in the Remuneration policy for employees of the Bank.

From the 2022 annual award onwards, all deferred variable remuneration is conditionally awarded in a financial instrument. Simultaneously, the above policies were amended and enhanced by an option to pay remuneration awarded in a financial instrument in existing stocks of the Bank. The remuneration policies allow a 1:1 conversion of phantom stocks granted before the changes were made, provided that a relevant agreement is signed with eligible employees. On 29 December 2023, the Polish Financial Supervision Authority (KNF) has granted the Bank the permission, referred to in Article 77 and Article 78(1) of the Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012, regarding the buy-backs of treasury shares by the Bank. The Bank’s share buybacks commenced in January 2024.

After Citigroup announced, on 15 April 2021, planned changes in the GCB strategy (retail banking), the Management Board of the Bank adopted a policy that allows granting awards for the to-date contribution of employees whose support will be crucial in implementing changes in the strategy for the separated part of Bank Handlowy w Warszawie S.A. (retail segment) – Transaction-related Award Policy. In 2023,

under this Policy, the Bank granted an award to one employee who did not have the status of Eligible Person.

The Remuneration Policy is assessed as follows:

- 1) According to the requirements, the Remuneration Policy covers all employees of the Bank.
- 2) The Remuneration Policy appropriately defines the rules of remuneration of persons covered by the Policy, including the form, structure and method of their determination.
- 3) The method of implementing the Remuneration Policy at the Bank and the supervision exercised over the Remuneration Policy ensure that the structure of remuneration of persons covered by it, including Key Persons, supports the long-term stability of the Bank and is in conformity with the strategy, goals and objectives, values and long-term interests of the Bank, specifically such as sustainable growth, and allows for eliminating any potential adverse impact of remuneration systems on adequate risk management.
- 4) The Bank properly implemented all the rules applicable to fixed remuneration included in the Remuneration Policy. In particular, the Bank diversifies amounts paid to persons covered by Remuneration Policy, including Key Persons, as their fixed remuneration taking into consideration their professional experience, requirements concerning competences and functions in the management process of the Bank.
- 5) The Bank ensures appropriate remuneration for internal audit employees and compliance employees so that highly qualified specialists could be hired and retained in those units. The Audit Committee of the Supervisory Board approved the analysis of remuneration for the Audit and Compliance employees at Bank Handlowy w Warszawie S.A.
- 6) The Bank uses the Remuneration Policy, in addition to other measures, to promote reasonable and effective risk management and to prevent risk taking going beyond an acceptable level. Consequently, the remuneration system based on financial and non-financial performance which is used by the Bank does not reward excessive risk taking in decision making. In particular, the remuneration of each of the Members of the Management Board is determined to promote the prudent management of the Bank and on the basis of financial and non-financial performance without rewarding inappropriate decisions taken by employees.
- 7) While designing and approving the funds allocated to variable remuneration of the Bank's employees for 2023, including Key Staff, the Bank performed their respective verification. It confirmed that the Bank had an appropriate and solid capital base which justified the proposed value of variable remuneration and that it did not limit the Bank's ability to increase its capital base and that it was justified by the financial situation of the Bank.
- 8) The detailed rules applicable to variable remuneration granted to employees having a significant impact on the risk profile of the Bank ("Eligible Persons"), including Key Persons, are regulated by the "Eligible Persons Remuneration Policy." Those rules were properly applied to grant the Eligible Persons, including Key Persons, variable remuneration in Q1 2024 (variable remuneration for their work in 2023), i.e.:
 - a) the Nomination and Remuneration Committee of the Bank's Supervisory Board recommends and justifies the amounts and conditions of variable remuneration for persons covered by the Eligible Persons Remuneration Policy. It also expresses an opinion on the amendments to the Eligible Persons Remuneration Policy, including the amounts of components of remuneration, following the rules of prudent and stable

management of risk, capital and liquidity and with special care of long-term interests of the Bank and its shareholders, investors and stakeholders. In 2023, the Nomination and Remuneration Committee of the Supervisory Board held six meetings.

- b) The level of variable remuneration for work in 2023 was determined on the basis of financial and non-financial criteria, taking into account the costs of risk, costs of capital and liquidity risk of the Bank in the long term. The thus determined variable remuneration was granted to employees of the Bank on 11 January 2024, and to Members of the Management Board on 15 February 2024. For Eligible Persons the variable remuneration was split into immediate and deferred award. Short-term financial instrument award is subject to 6- or 12-month retention period and is paid out after its expiry. Deferred variable remuneration is divided into four or five tranches, which may vest respectively in years 2024-2027 or in years 2024-2028. Long-term instalments of the phantom-stock awards are paid (provided that they have been vested) after the end of a 6- or 12-month retention period.
- 9) In 2023, in respect of one Eligible Person, the Bank's Management Board, after obtaining a positive opinion from the Nomination and Remuneration Committee of the Supervisory Board, decided to deprive the person of the right to deferred variable remuneration which had been granted conditionally to that person during their employment relationship and for which that person had not become eligible before the employment contract termination date. In 2023, the Bank properly analyzed the roles and the responsibilities of its employees in relation to the key risks managed by the Bank as well as quantitative and qualitative criteria described in Commission Delegated Regulation (EU) No 2021/923 of 25 March 2021 supplementing Directive 2013/36/EU of the European Parliament and of the Council with regard to regulatory technical standards setting out the criteria to define managerial responsibility, control functions, material business units and a significant impact on a material business unit's risk profile, and setting out criteria for identifying staff members or categories of staff whose professional activities have an impact on the institution's risk profile that is comparably as material as that of staff members or categories of staff referred to in Article 92(3) of that Directive, in relation to qualitative and appropriate quantitative criteria to identify categories of staff whose professional activities have a material impact on an institution's risk profile and on this basis established a list of employees whose professional activities have a material impact on the risk profile of the Bank and therefore should be subject to the provisions of the Eligible Persons Remuneration Policy. In 2023, the list of staff covered by the Eligible Persons Remuneration Policy included 96 persons at the end of the year.
- 10) The Remuneration Policy adopted at the Bank ensures an appropriate method for remuneration of employees involved in the sales of the Bank's products and services, which encourages them to act in an honest, impartial, transparent and professional way, taking into consideration the rights and interests of all Clients of the Bank in the short, medium and long term.
- 11) In 2021, the Bank specified the provisions of the Remuneration Policy by ensuring the compliance with the strategy of the Bank regarding the sustainability risk (ESG). The Remuneration Policy assumes differentiation of the remuneration of selected employees on the basis of quantitative and qualitative criteria such as approach to taking risk and ensuring compliance with the regulations.

The Supervisory Board positively assesses functioning of the Remuneration Policy applied at the Bank.

The Bank’s Diversity Strategy embraces the differences stemming from areas of education, experience, gender and age and uses them to achieve the best results. The Bank strives to ensure sufficient representation of both genders on the Management Board. If during the recruitment process for the post of a Management Board Member the Nomination and Remuneration Committee of the Supervisory Board identifies the possibility of a case of under-represented gender on the Board of Directors, the Committee shall set a target value for the representation of such under-represented gender. The resolution was adopted unanimously.

In 2023, the Bank upheld its decision on the exclusion of the following three principles:

1. Article 8.4 (electronic General Meeting) – currently available IT solutions do not guarantee a secure and efficient electronic form of holding a General Meeting. However, the Management Board does see the importance of such form of shareholders' participation in the Bank's General Meeting, and therefore a separate decision on that matter shall be made before each General Meeting.
2. § 11.2 (transactions with related parties) – this principle shall not be applied with respect to contracts tied to day-to-day operations, in particular to contracts tied to liquidity, due to the nature of transactions and the number of contracts being concluded, and with respect to transactions executed on the basis of a brokerage contract for fulfilment of orders, concluded with Clients of CGML and CGME, as these transactions are concluded under market terms.

language. Simultaneously, any motions submitted to the Management Board, any materials and minutes of meetings are prepared and kept in Polish and in English.
