2. ASSESSMENT OF THE FINANCIAL RESULTS AND GENERAL CONDITION OF THE COMPANY

The economic growth rate in Poland decreased from 5.1% in 2018 to approximately 4.0% in 2019. The main growth contributor in 2019 was still domestic demand, however its pace declined from 5.3% in 2018 to 3.8% in 2019. Private consumption was fuelled by good labor market conditions (unemployment rate decreased from 5.8% to 5.2%) and increased transfers to households.

On the other hand, the growth of consumer goods and services prices was surprisingly disappointing. They rose 2.3% in 2019, as compared to an increase of 1.7% in 2018, with inflation visibly accelerating during the year from 0.7% in January to 3.4% in December.

Poland's good macroeconomic results translated into positive performance of the banking sector. In 2019, the net profit of the banking sector significantly improved from prior year, i.e. by 12.5%. The key driver of that growth of its net profit was an improvement in interest income, supported by rising volumes of consumer loans. On the other hand, the banking sector was exposed to increasing operating expenses in the wake of higher fees to the Bank Guarantee Fund and higher bank levy, as well as higher net impairment charges and provisions.

Operating revenues of the Bank amounted to PLN 2,190 million in 2019 and were higher by PLN 41 million (or 1.9%) as compared to 2018. This increase occurred for both net interest income and net fee and commission income, reflecting higher transactional volumes realized by clients of the Bank. Higher client activity was observed in segments in which the Bank is the leader: transactional & custody services and credit cards.

In 2019, general administrative expenses and depreciation & amortization amounted to PLN 1.19 billion and increased by PLN 34 million (i.e. 3%) from 2018. Excluding the fees to the resolution fund of the Bank Guarantee Fund, operating expenses declined by 1% year over year. With respect to its cost management strategy, the Bank was focused, on one hand, on the digitization and automation of processes, including by commercialization of the electronic platform for document exchange with clients. On the other hand, the Bank continued its investments in areas where the prospective growth of its client business is most promising. In 2019, as the first bank in Poland, Citi Handlowy launched an entirely remote and automated credit process for new retail clients based on biometric solutions.

In 2019, net credit losses increased by PLN 174 million from 2018, as a result of extraordinary events in the Commercial Banking segment. On the other hand, the risk indicators of the Bank were still better

than in the entire banking sector. The non-performing loan (NPL) ratio of the Bank was 3.3% as at the end of 2019, as compared to 5.9% in the banking sector.

For the Bank, it was another year of sustainable growth of lending. In the institutional client area, the growth rate was 10%, considerably above the market, which confirms the Bank's position as the leader of corporate banking in Poland. The key driver was securitization transactions, where the Bank's share was 80% and where the Bank is an unchallenged leader in that prospective market segment. In Consumer Bank, volumes rose by 3%. As far as the acquisition of new retail volumes is concerned, those efforts were mainly conducted via electronic channels, e.g. in the acquisition of new cash loans.

In the year 2019, the Bank earned a net profit of PLN 485.1 million, i.e. 26% lower versus prior year. An important factor behind the decline was extraordinary items connected with higher net impairment write-offs in the Commercial Bank segment and higher contributions to the resolution fund of the Bank Guarantee Fund.

The total capital ratio (TCR) of the Bank was 17.0%, i.e. significantly above the regulatory levels. The Supervisory Board believes that the level of capitals maintained by the Bank is sufficient to ensure its financial security, as well as the security of deposits entrusted to it, and to stimulate its further growth.

Since in 2020 both global and Polish economy may be affected by various risks, such as international trade restrictions, sluggish global economic growth and higher volatility in financial markets, the Supervisory Board will continue its close cooperation with the Management Board to monitor the impact of those risk factors on the situation of the Bank. Simultaneously, the Supervisory Board will monitor developments in the area of FX-denominated mortgage loans and its effect on Poland's banking sector.

Taking into consideration the financial results achieved, the safe position of the Bank, the stable capital and liquidity ratios and the consistent and coherent strategy of the Bank, the Supervisory Board's assessment of the activities of the Bank in 2019 is positive. Simultaneously, the Supervisory Board is convinced that both already started and planned initiatives will contribute to an increase in shareholder value by allowing the Bank to achieve optimal financial results and market position despite a challenging market environment.

3. ASSESSMENT OF RATIONALITY OF THE BANK'S POLICY IN THE AREA OF CORPORATE SOCIAL RESPONSIBILITY AND SPONSORING

3.1. Corporate social responsibility of the Bank

The Bank is an institution which, since the beginning of its 150-year history, has considered social and environmental aspects in its decisions and specified direction of its activity. The Bank lends its attentive ear to expectations of its business and social partners. In 1877, just a few years after it was established, Bank Handlowy vigorously opposed speculations, considering them ethically dubious. Thus, it changed the banking market at that time. Such an approach is embedded in the DNA of the Bank and is applied consistently.

The bank has identified areas of activities that are of crucial importance from the perspective of the social and natural environment and which make the foundation of the corporate social responsibility strategy for its activities. They include activities related to investments and products, safe and accessible banking services, limitation of negative environmental impacts, concern for people creating the institution, development of communities, and responsible management.

The Bank's ambition is to remain, in the long term, the leader in social responsibility among banking institutions in Poland. This commitment is appreciated by continuously placing the Bank in the Respect Index ranking organized by Giełda Papierów Wartościowych w Warszawie S.A. Since 2018 the Bank has been included in the Super Ethical Companies index of the *Puls Biznesu* daily. For many years, to a significant extent in reliance on the activity of the established corporate foundation (The Kronenberg Foundation at Citi Handlowy), the Bank has been an undisputed leader in social involvement and employee volunteering.

The Foundation's strategic objective is to create a positive social and economic change and to inspire activities in the following areas:

- Financial education and Poles' digital competencies – to increase Poles' financial security and to protect their data on the net.
- Entrepreneurship and leadership – to increase the so-called disfavored groups' or underrepresented groups', such as women, migrants, persons with disabilities, share in business.
- Employee volunteering – to evoke positive changes in local communities and to develop the sense of social responsibility among the Founder's employees as well as its business partners and clients.
- Heritage – to inspire business to create changes by telling the story of Leopold Kronenberg and of Bank Handlowy, and to promote best practices regarding the protection of the Polish cultural heritage.

In 2019, among many other initiatives, the Foundation carried out, together with the THINK! Foundation, the 11th edition of the "Poles' Attitudes towards Finance" survey. The Foundation also conducted, jointly with the SoDA Organization of IT Employers, a survey of Polish software houses, as the first such project in Poland, focused on the rapidly growing IT sector. Also in 2019, the Foundation took part in the IT for SHE program, run by the "Prospects" ("Perspektywy") Educational Foundation. IT for SHE is a coalition of international companies present on the Polish market and having a clear technological component in their activity.

The Foundation has joined programs financed by Citi Foundation: Business in Women's Hands (Network of Entrepreneurial Women), which supports women in business; Hello Entrepreneurship (Ashoka), which helps migrants develop their business competences; "Savings Week" (Think) educational program; and Shesnnovation, dedicated to female researchers from technical universities (Perspektywy).

The Foundation also followed up activities in the scope of protection of cultural heritage, the most important of which is the annual Professor Aleksander Gieysztor Award. The competition was held under the honorable patronage of Mr. Andrzej Duda, the President of the Republic of Poland. The winner of the 21st edition of the Professor Aleksander Gieysztor Award was Professor Jerzy Limon, for the initiation and creation of the Shakespeare Theatre in Gdańsk.

Within the framework of the Employee Volunteering Program, volunteers completed over 200 social projects for nearly 46,000 beneficiaries. Thus, since its kickoff, Citi employees in Poland have been involved in the program as many as 29,500 times, working more than 160,000 hours. They managed to help over 369,000 people across the whole country. In 2019, the Foundation was also vigorously developing volunteering activities to promote competence build-up via the "Citi Volunteers for Development" mentoring program for entrepreneurs, start-ups and students.

Full description of its activities is available in the Bank's Annual Report and on the website www.kronenberg.org.pl

3.2. Sponsoring

In 2019, the Bank and the Foundation supported numerous nation-wide and international conferences and events. One of them was the 9th edition of the European Forum for New Ideas (EFNI) in Sopot – a leading conference in Central and Eastern Europe, attended by more than 1,200 representatives of the world of science, business and politics. During the conference, the laureates of the 6th edition of the Emerging Market Champions Competition were honored. Citi Handlowy was also a partner of the 9th European Financial Congress in Sopot, an annual meeting of representatives of the European financial sector, the world of politics and economic experts. The main topic of the 9th edition of the Congress was the slogan "How to Live in Uncertain Times".

As part of its cooperation with the American Chamber of Commerce, Citi Handlowy was a partner of the AmCham Diner organized during the European Economic Congress in Katowice, the Economic Forum in Krynica and the Congress 590 in Rzeszów. Representatives of Citi Handlowy participated in all those events and in numerous discussion panels.

In May 2019, Citi Handlowy announced cooperation with the Polish Paralympic Committee. The cooperation is an element of Citi's global initiative to support the paralympic movement and efforts to change the social perception of disabilities. In Poland, Citi also supports, as part of the global Team Citi project, two outstanding sportspersons – Natalia Partyka, a four-time Paralympic female champion in table tennis, and Maciej Lepiato, a two-time Paralympic champion and a four-time World Champion for the disabled in high jump.

Acting as an organization supporting the paralympic movement in Poland, Citi Handlowy was the Main Sponsor of the Final Gala of the 1st. Athlete of the Year 2019 Competition of the Polish Paralympic Committee. The event during which the winner of the Competition was announced and the statuette named after Sir Ludwig Guttmann was awarded for the first time in history, was held in December at the headquarters of the Polish Olympic Committee in Warsaw.

One of many activities through which Citi Handlowy supported persons with disabilities and was involved in building a society that accepts diversity, was Citi Handlowy's participation in the largest charity business run in Poland Poland Business Run. Relay races are organized in 9 cities all over Poland to support young people after amputations, to give them a chance for a better life. Citi Handlowy was the sponsor of the Warsaw edition of that event – Warsaw Business Run.

In 2019, the Bank also supported the development of sports in Poland under the Live Well at Citi program, combining such elements as: volunteering, assistance to local communities and promoting a healthy lifestyle. It was also a partner of the Polish Golf Union, and a sponsor of the Ironman Poland Tour – triathlon races in Warsaw and Gdynia.

For the third consecutive year, Citi Handlowy continued cooperation with the international city bike operator Nextbike. As part of that cooperation, from March to November 2019, bikers could rent over 6 thousand city bikes available in Warsaw, Łódź, Wrocław, Poznań, Katowice, including Górnośląski Okręg Przemysłowy (Upper Silesian Industrial Region) and – for the first time – in Trójmieście (Tricity). The bikes were used as a carrier for a campaign promoting the Bank's products and services. In 2019, the bikes with Citi Handlowy branding were rented almost 12.5 million times. The Warsaw bikers could use an extended functionality of Citi Handlowy Bikes, a banking and biking application for bike renting, with which they can also find out how biking improves the quality of air in the city. The Citi Handlowy Bikes application was downloaded almost 50 thousand times. In 2019, the bikers could for the first time – thanks to cooperation between Citi Handlowy and jakdojade.pl – find and mark a route by bike in Warsaw.

The year 2019 was another year of joint activities of Citi Handlowy and Live Nation, a leader in the field of concerts and "live" events organization. The Bank offered holders of Citi Handlowy cards access to exclusive pre-sales of tickets for concerts organized throughout Poland. Clients of the Bank were the first in line to buy tickets for concerts of Madonna, Sting, Bon Jovi, Pink, Rod Stewart, Ariana Grande or Guns'n'Roses. The strategic cooperation with Live Nation will be continued in 2020.

The Supervisory Board positively assesses the involvement of the Bank in the area of corporate social responsibility and sponsorship of important economic events.

4. THE ASSESSMENT OF FUNCTIONING OF REMUNERATION POLICY AT BANK HANDLOWY W WARSZAWIE S.A.

The Supervisory Board is required to assess the functioning of the remuneration policy at Bank Handlowy w Warszawie S.A based on § 28 point 3 of the Principles of Corporate Governance for Supervised Institutions of the Polish Financial Supervisory Authority, dated 22 July 2014 and effective from 1 January 2015.

In 2019, all remuneration-related issues in Bank Handlowy w Warszawie S.A. (the "Bank") were governed by the *Remuneration policy for employees of Bank Handlowy w Warszawie S.A.* ("Remuneration Policy") of 22 December 2017, as subsequently amended. The Remuneration Policy covers various remuneration procedures and rules applicable in the Bank and sets out the principles for remunerating all employees of the

Bank, including, in particular, Key Persons, persons whose professional activities have a material impact on the risk profile of the Bank, employees involved in sales of the Bank's products and services and persons employed in control functions. The Remuneration Policy implements requirements regarding the structuring of the remuneration principles in banks provided for in the provisions of law, the Rules of Corporate Governance for Supervised Institutions adopted by the Polish Financial Supervision Authority ("Rules of Corporate Governance"), the Code of Best Practice for WSE Listed Companies 2016 and recommendations of the Polish Financial Supervision Authority applicable to the banking sector, and takes into account the Guidelines of the European Banking Authority on sound remuneration policies under Articles 74(3) and 75(2) of Directive 2013/36/EU and disclosures under Article 450 of Regulation (EU) No 575/2013, the Guidelines of the European Banking Authority on remuneration policies and practices related to the sale and provision of retail banking products and services and the Guidelines of European Securities and Markets Authority on remuneration policies and practices (MiFID).

The assessment of functioning of the Remuneration Policy is as follows:

- 1) According to the requirements, the Remuneration Policy covers all employees of the Bank and defines the population of Key Persons indicated in the Rules of Corporate Governance.
- 2) The Remuneration Policy properly sets out general principles for employees of the Bank, including Key Persons, in terms of the form, structure and manner of determination of their remuneration. Detailed rules of remunerating Members of the Supervisory Board are regulated by resolutions adopted by the General Meeting of Shareholders of the Bank.
- 3) The implementation of the Remuneration Policy by the Bank and the governance of the Remuneration Policy ensure that the structure of remuneration of all employees, including Key Persons, helps ensure a long-term stability of the Bank and is aligned with the Bank's strategy, objectives, values and long-term interests, such as the sustainable growth of the Bank, and is also aimed at eliminating the potential negative impact of the remuneration systems on risk management.
- 4) The Bank properly implemented all the guidelines relating to the construction of fixed remuneration that are provided in the Remuneration Policy. In particular, the Bank differentiates the level of fixed remuneration of employees, including Key Persons, primarily based on professional experience, required competences and the role in the management process in the Bank.
- 5) The Bank ensures the appropriate level of remuneration of employees of internal audit and compliance units in order to ensure that highly qualified and experienced specialists are hired and retained at those organizational units. The compensation level of Internal Audit and Compliance employees was examined and positively assessed during a review conducted by the Audit Committee.
- 6) Through the Remuneration Policy, the Bank promotes sound and effective risk management and does not encourage risk-taking in excess of the tolerable risk level. To this effect, remuneration schemes that are based on financial and non-financial results do not reward excessive risk in decision making. In particular, the remuneration of members of the Management Board is determined in a way that promotes the prudent management of the Bank, is based on financial and non-financial results and does not reward failure.
- 7) In the process of setting and approving the budget for annual awards and awards from the incentive fund for 2019 for the Bank's employees, including the Key Persons, the Bank properly verified whether the Bank has a sound and strong capital base that justifies the grant of variable remuneration at the proposed level and if it does not reduce the Bank's ability to increase its capital base, and if it is sustainable according to the financial standing of the Bank.
- 8) The detailed rules applicable to variable remuneration awarded to employees whose professional activities have a material impact on the risk profile of the Bank ("Identified Staff"), including the Key Persons, are set out in the *Remuneration policy for persons whose professional activities have a material impact on the risk profile of Bank Handlowy w Warszawie S.A.* ("Remuneration Policy for Identified Staff"). Those rules were properly applied when variable remuneration was granted to the Identified Staff, including the Key Persons, in January 2020 (awards for 2019 Performance Year).

- a) The Bank has a Nomination and Remuneration Committee of the Supervisory Board, the role of which is to provide recommendations and opinions on the levels and conditions of variable remuneration of employees covered by the Remuneration Policy for Identified Staff. It gives its opinion on the changes to the Remuneration Policy for Identified Staff, including the amounts and components of remuneration, taking into account a cautious and stable risk, capital and liquidity management, and paying special attention to long-term interests of the Bank and the interests of the Bank's shareholders and investors. The Nomination and Remuneration Committee of the Supervisory Board held six meetings during 2019.
 - b) The level of the variable remuneration for 2019 was based on the assessment of both financial and non-financial criteria, including the cost of the Bank's risk, the cost of capital, and liquidity risk in the long-term perspective. The variable remuneration set out that way was granted to Key Persons on 14 January 2020. Immediate cash award is paid out no later than in the month directly following the month in which it has been granted. Short-term phantom share awards are subject to 6 or 12 months retention period and are paid out after the retention period ends. Deferred variable remuneration is divided into three or five tranches, which may vest respectively over the years 2021-2023 or 2021-2025. Tranches of a deferred cash award and a long-term phantom award (provided they are vested) are paid out 6 or 12 months after the retention period ends.
 - c) In 2019, the Management Board of the Bank, based on a positive opinion of the Nomination and Remuneration Committee of the Supervisory Board, decided that five Identified Staff had lost the right to deferred variable remuneration, which was granted conditionally to those Identified Staff in the course of their employment relationships and which was unvested before the date of termination of their employment contracts. This decision was made in accordance with the provisions of the Remuneration Policy for Identified Staff regarding the termination of employment contracts under the conditions for acquisition of rights to deferred variable remuneration. Such an adjustment of deferred variable remuneration was connected neither with the Bank's nor with the individual's results.
- 9) The Remuneration Policy adopted by the Bank sets out the proper remuneration rules for employees involved in sales of the Bank's products and services that encourage them to act honestly, fairly, transparently and professionally, taking account of the rights and interests of all of the Bank's clients, in the short, mid and long term.
- 10) In 2019, the Bank properly analyzed the roles and responsibilities of its employees in relation to key manageable risks in the Bank, as well as quantitative and qualitative criteria described in Commission Delegated Regulation (EU) No 604/2014 of 4 March 2014 supplementing Directive 2013/36/EU of the European Parliament and of the Council with regard to regulatory technical standards with respect to qualitative and appropriate quantitative criteria to identify categories of staff whose professional activities have a material impact on an institution's risk profile, and on that basis prepared the list of employees who has a material impact on the risk profile of the Bank and, therefore, should be the subject to the provisions of the Remuneration Policy for Identified Staff. In 2019, the list of employees covered by the Remuneration Policy for Identified Staff included 90 persons.

The Supervisory Board's assessment of the functioning of the Remuneration Policy applied in the Bank is positive.

7. The Policy is adopted by way of resolution of the General Meeting of Shareholders. The resolution of the General Meeting of Shareholders regarding the Policy is adopted at least every 4 years. Material change of the Policy requires resolution of the General Meeting of Shareholders.
8. Implementation of the Policy is subject to review by the Supervisory Board of the Bank at least once a year. Assessment of the functioning of the Policy is presented to the General Meeting of Shareholders.
9. Variable remuneration of the Management Board Members is monitored by the Nomination and Remuneration Committee of the Supervisory Board.

Chapter IV. General remuneration rules

10. The Policy contributes to implementation of the strategy of the Bank, effective risk management, its long-term interest and stability. The objectives of the Policy and remuneration practices adopted by the Bank are to:
 - a) Align compensation practices, structures and decisions with shareholder interest,
 - b) Reinforce a culture based on the high ethical standards,
 - c) Effectively manage risk by encouraging prudent decision-making,
 - d) Reflect regulatory guidance,

- e) Attract and retain talent to support Bank's development and lead the Bank to success.
11. The Bank promotes its stakeholders' understanding of the Bank's design and implementation of incentive compensation by public disclosures of description of compensation policies, procedures and practices. Therefore, the Bank publishes, on its website, the Policy and the resolution of the General Meeting of Shareholders on its approval, along with the date of resolution adoption and voting results.
 12. Within the Policy, the Bank makes a distinction between fixed remuneration and variable remuneration. Both monetary and non-monetary benefits are taken into account when making the above distinction.
 13. For the avoidance of doubt, cost of benefits related to improving professional skills related to the duties on the job (in particular tuition fees) covered by the Bank does not constitute remuneration.
 14. Remuneration is fixed where the conditions for its award and its amount:
 - a) are not discretionary, i.e. reflect in particular the relevant professional experience and responsibility of an individual as set out in an individual's job description as part of the terms of employment and is set according to competences, place in the organizational structure and role in the management process;
 - b) are permanent, i.e. maintained over a period tied to the specific role and organisational responsibilities of an individual;
 - c) cannot be reduced, suspended or cancelled by the Bank;
 - d) do not provide incentives for an employee for risk-taking;
 - e) do not depend on individual's performance.
 15. Where the allocation of a component to the fixed remuneration is not possible based on the criteria mentioned in point 14, it is considered variable remuneration component.
 16. Variable remuneration may be granted in the form of cash, non-cash awards or financial instruments and be subject to partial deferral.
 17. Remuneration rules encourage to act honestly, fairly, transparently and professionally, taking account of rights and interests of the Bank's shareholders and clients, in the short, mid and long term. Therefore, remuneration is designed in such a way so as not to create incentives that may lead to favour individual's own interest or the Bank's interests, to the potential detriment of shareholders or clients.
 18. General remuneration rules provided for in this Policy are consistent with the remuneration rules for employees who are neither Management Board nor Supervisory Board Members. In particular, employees of the Bank should be treated equally in terms of entering into and terminating an employment relationship, employment conditions, promotion and access to training in order to improve professional qualifications, in particular regardless of gender,

age, disability, race, religion, nationality, political beliefs, belonging to trade union, ethnic origin, religion, sexual orientation, and regardless of employment for a definite or indefinite period or for full-time or part-time work.

Chapter V. Rules for the Supervisory Board Members

Fixed and variable remuneration

19. The rules of remunerating and the amounts of remuneration of the Members of the Supervisory Board of the Bank are regulated by the resolutions adopted by the General Meeting of Shareholders.
20. Supervisory Board Members may be awarded the following, fixed remuneration components:
 - a) Monthly remuneration for the Chairman of the Supervisory Board and for other Members of the Supervisory Board,
 - b) Remuneration for participation in each of the committees of the Supervisory Board, either as a chairman or as a member of the committee,
 - c) reimbursement of expenses related to participation in the work of the Supervisory Board, including travel and accommodation costs.
21. For the avoidance of conflict of interest, no variable compensation (subject to performance) should be granted to the Supervisory Board Members.

Pension plans

22. The Supervisory Board Members are not entitled to participate in any additional pension plans.

Other terms of employment

23. The Supervisory Board Members may hold their functions based on appointment by the General Meeting of Shareholders.
24. Members of the Supervisory Board may be elected for a common term of office of three years. A Supervisory Board member may be recalled from his/ her function at any time by way of a resolution of the General Meeting of Shareholders. Furthermore, the Supervisory Board member mandate expires in other cases set out in the Commercial Companies Code and in the Bank's Articles of Association.

Chapter VI. Rules for Management Board Members

Key remuneration principles

25. Recognising that lasting growth is what builds shareholder value, the Bank believes that the Management Board Members should be compensated based i.a. on their competencies, contributions and performance over a period of time exceeding one financial year.
26. Amount of remuneration of the Members of the Management Board of the Bank should be sufficient to attract, retain and appropriately motivate the persons necessary for the proper management of the Bank.
27. The Bank's compensation philosophy is also to differentiate individual compensation based on quantitative and qualitative criteria, such as risk and compliance behaviour, to reflect individuals' contributions and support effective risk management controls by reducing incentives to create imprudent risks for the Bank and its activities, and by rewarding a thoughtful balance of risk and return.
28. Structure of remuneration of the Management Board Members supports long-term stability of the Bank and is aligned with the Bank's strategy, objectives, values and long-term interests, such as, in particular, sustainable growth of the Bank, and is also aimed at eliminating the potential negative impact of the remunerations systems on the proper risk management.
29. The Management Board Members may be granted both fixed and variable remuneration. Remuneration structure of a given Management Board Member is determined individually by the Supervisory Board and it depends i.a. on the position held by the Management Board Member and a scope of responsibility and duties entrusted to him/her as well as the level of experience of that person as well as individual's performance.
30. The Bank sets out the appropriate balance of fixed remuneration and variable remuneration to allow the operation of a fully flexible remuneration policy, including the possibility not to grant the variable remuneration.
31. The ratio of variable to fixed remuneration components for the Management Board Members is set at the maximum level of 2:1.

Fixed remuneration

32. Bearing in mind points 14 and 15, in case of the Members of the Management Board of the Bank, in particular the following components are considered fixed remuneration:
 - a) base salary,
 - b) benefits that are required by law,
 - c) benefits that are not subject to performance, in particular the ones to which other employees of the Bank are entitled,
 - d) severance pay which is not subject to performance,
 - e) benefits connected with participation in the pension plan,

- f) benefits connected with the relocation package indicated in the employment contract or in the letter of intent,
- g) compensation payable on the basis of non-compete agreements.

Variable remuneration

- 33. The Bank promotes sound and effective risk management and does not encourage risk-taking that exceeds level of risk tolerated by the Bank. To this effect, remuneration which is performance-driven does not reward excessive risk in decision-making. In particular, the variable remuneration of the Management Board Members should be determined in such a way that it rewards prudent management of the Bank, reflects performance and does not reward failure.
- 34. Variable remuneration should reflect sustainable and risk-adjusted performance. Therefore it is granted and paid out where the Bank has a sound and strong capital base, it does not limit the Bank's ability to increase its capital base and it is sustainable according to the financial standing of the Bank. In particular, the pool allocated for annual awards for the Management Board Members (together with the pool allocated for annual discretionally awards for other employees) for a given year depends i.a. on:
 - a) assessment if risks identified as significant are covered with the allocated internal capital; capital limits for significant types of risk and organisational units set for a given year are utilized as expected, providing the opportunity for business growth; the risk taken, defined within the Bank's risk profile, is not excessive in relation to the capital and liquidity, i.e. is maintained at a level determined by the overall risk appetite, and monitoring of thresholds for risk measures defined within risk appetite shows no excesses, confirming effective risk management;
 - b) risk-adjusted financial results of the Bank;
 - c) assessment if it does not have a negative impact on the liquidity of the Bank.
- 35. In case of Members of the Management Board of the Bank variable remuneration means in particular an annual discretionary bonus granted by way of an individual decision of the Supervisory Board. Annual discretionary bonus may be granted subject to demonstrated the Leadership Standards and realization of objectives set for an individual. The process of setting performance objectives starts at the beginning of a calendar year and takes into account i.a. business strategy adopted by the Bank.
- 36. For the purpose of defining the amount of the variable remuneration, in particular the following is taken into account:
 - a) Bank's performance in the area of an individual's liability, where the performance of the Bank is adjusted for current and future risks;
 - b) Performance of an organisational unit in which an individual is employed;

- c) Performance of an individual, where in the assessment of individual performance the financial and non-financial criteria in particular such as, demonstrated competencies and the way the performance goals are achieved measured with the level of fulfilment of the Leadership Standards, are taken into account. In particular, at least one of them should be connected to risk management.
37. The assessment made for the purpose of determining the amount of variable remuneration takes into account the current and future risks associated with that performance.
38. Subject to the proportionality principle, the Bank awards portion of variable remuneration (if granted):
- a) in the form of equity or equity linked instruments in order to foster partnership behaviour and to align Management Board Members interests with those of shareholders,
 - b) on a deferred basis.

Variable remuneration in the form of financial instrument

39. For annual awards exceeding a threshold approved by the Supervisory Board of the Bank at least 50% of the variable remuneration should be awarded in the form of non-cash instruments value of which depends on the financial results of the Bank. This condition is fulfilled by the Bank's shares or phantom shares, value of which fluctuates depending on the market value of the Bank's shares.
40. Financial instrument may be granted in the form of:
- a) Short-Term Award which is granted unconditionally and is paid out no sooner than after retention period defined by the Supervisory Board,
 - b) Long-Term Award vesting of which depends on meeting certain conditions (referred to in the point 43), deferred over period no shorter than 3 years and paid out after retention period on each tranche defined by the Supervisory Board.
41. During the deferral period and retention period, Management Board Members may be entitled to dividend equivalent payments in respect of any dividends that are declared and paid to ordinary holders of Bank's shares.

Deferred variable remuneration

42. For annual awards exceeding a threshold approved by the Supervisory Board of the Bank part of the variable remuneration, both in the form of cash and financial instrument, is subject to deferral over period no shorter than 3 years and may be subject to retention period defined by the Supervisory Board.
43. Deferred variable remuneration may be subject to ex-post risk adjustment in order to align variable remuneration to additional risks that have been identified or materialised after the award has been conditionally granted and before it vested. Therefore, the amount of deferred portion of the award to be paid out may be decreased or completely reduced based on

decision of the Supervisory Board of the Bank made with application of criteria previously defined by the Supervisory Board.

44. Guaranteed variable remuneration is exceptional. With the consideration of conditions provided for in the point 34, it may only occur when hiring new staff, and is limited to the first year of employment of performing a function.

Pension plans

45. Management Board Members are entitled to participate in pension plan on the same terms and conditions as any other employee of the Bank.
46. Within the remuneration framework, the Bank does not grant the discretionary pension benefits referred to in Art. 4 sec. 1 point 73 of the Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and investment firms and amending Regulation (EU) No 648/2012.

Other terms of employment

47. A Management Board Member may be employed based on employment contract or other contract allowed by the law, for a definite or indefinite period of time.
48. Notice period is set up by the Supervisory Board and cannot be shorter than the one required by the law. It should not exceed 6 months. In justified cases Supervisory Board may decide on other period of time. Terms of terminating an employment contract concluded with a Management Board Member are consistent with those provided for in the Labour Code.

Chapter VII. Final provisions

49. With respect to Members of the Management Board and Members of the Supervisory Board of the Bank, any amendments made to the remuneration documents and the introduction of any new remuneration regulations at the Bank must be compliant with the rules provided for in this Policy.

- 2.9 Supervisory Board Members may hold simultaneously only a number of functions, on the terms specified in the Banking law, and engage in any other time-consuming activities only to a limited extent.
- 2.10 It has been postulated that the General Meeting should incorporate the diversity principles during appointments to the Supervisory Board, namely such processes should provide for equal opportunities for women and men irrespective of their declared sex or age, who have varying individual knowledge, skills and experience and, at the same time, are adequate for the office to which a Supervisory Board Member is appointed, and, further, they complement each other so as to provide for the sufficient standard of collective supervision over the Bank's governance to be

verified by means of collective assessment of the entire Supervisory Board's skills set. In pursuance of the diversity objective, efforts should be made to adhere to such standards as equal treatment, prevention of discrimination and non-ethical conduct. The reflection of the need for diversity on the Supervisory Board cannot prejudice the proper supervision over the Bank's governance.
